2.4 regprof register ec ims privacy statement

\bigcirc EUROPEAN COMMISSION AUTHENTICATION SERVICE (ECAS) Eur 1. What is the Identity Management Service? nt Service (IMS) provides a common way for users to register or be registered for access to a number of different Commis ion information systems or services (referred to hereafter as sites). You are effected by this privacy statement if you use the European Commission Authentication Service (ECAS) when logging into Commission sites, as it means that you have been region to the formation of the service of the s on's own staff, personnel of other organisations and members of the pu Users include the Com at the initiative of a user or of the organisation that the user belongs to or represents by means of an automatic transfer of information from the user's organisation to the Commission by means of direct entry of the relevant information by the user IMS includes facilities for authenticating registered users and controlling their access to Commission site In each case, the personal data that is recorded is governed by Regulation (EC) 45/2001 lity of the Controller, Mr Stephen Quest, Director Ger eral, Informatics DG. Further re Individual Commission sites that rely on IMS for commonly required personal data may nevertheless collect additional personal data themselves. This is covered by the sites' own privacy 2. What information do we collect, for what purpose and through which technical means? If access to a site is restricted to authorised persons If there is a simple need for the site to remember you between visits and adapt itself to your needs or wishe to allow you to receive further information that you have requested, such as newsletters and information up to grant you individual privileges that you might request or otherwise be entitled to We store the information that you provide on the registration form (# you registered yoursel?) or that your organisation provides directly to us. The information you provide may be made available to Commission sites of ther than the one for which you organialy obtained the account provided that you attempt to access them while logged in using your account. By logging in and accessing accounts you are indicating your consent to the use of the data a device indicationed in this statement. The data abtained from the registration process includes both personal details and, if you are registered as a representative or member of an organisation, details related to your link. That organisation, the relation is include your names, geographical location, areas of interest (with respect to the Commission), e-mail address and leightone number. Concerning you graination, the details mere your work (or your office address, the nature of your relationship with the organisation (a, e-mailyos), your relas and (b) with the organisation (a, e-mailyos), your relationship with the organisation (a, e-mailyos), your relas and (b) with the organisation (a, e-mailyos), your relas and (b) with the organisation (a, e-mailyos), your relas and (b) with the organisation (a, e-mailyos), your relas and (b) with the organisation (a, e-mailyos), your relas and (b) with the organisation (a, e-mailyos), your relas and (b) with the organisation (a, e-mailyos), your relas and (b) with the organisation (a, e-mailyos), your relas and (b) with the organisation (a, e-mailyos), your relas and (b) with the organisation (a, e-mailyos), your relas and (b) with the organisation (a, e-mailyos), your relas and (b) with the organisation (a, e-mailyos), your relas and (b) with the organisation (a, e-mailyos), your relas and (b) with the organisation (a, e-mailyos), your relas and (b) with the organisation (a, e-mailyos), your relas and (b) with the organisation (a, e-mailyos), your relas and (b) with the organisation (a, e-mailyos), your relas and (b) with the organisation (a, e-mailyos) and (b) and (nation for us to have reasonable confidence that its subsequent usage is by you The account that we create contains enough inform vided (including the password). We also store certain additional information (listed below) relating to the activity on the user act the Commission systems that you access. The additional information is used to diagnose and resolve problems and to deal with security incidents. Much of it relates to attempts to use an identity and thus to events that or a user has successfully addhenticated. The Identity Management Service also stores a list of the access rights granted to you by the Con ion for the purpose of granting or denving access to individual sites. Users can inspect all the data that is maintained about their own account, allowing them to check that their account has not been used, and that attempts have not been without their knowledge. collect the following additional data about each user Date and time of emotif necer auccessful and unsuccessful authentication e last change of password elast password successful and authentication When you login and / or change your password, we may record further information in log files, such as the IP address used, in line with the purposes stated above. This info n following up any doubtful activity relating to your account. It will not be used to monitor your activity, except to allow the removal of the account when no longer used. Many Commission sites use the European Commission Authentication Service (ECAS) for user authentication: ECAS has a special user interface, independent of the client site and provides single sign-on-experience. Some of the information mentioned here is not relevant for the Commission sites that do not use ECAS – If you need to point through ECAS will therefore not be maintained in your account data. Note that logging in through ECAS always involves apped districtly mentioned with the ECAS log. Each time you log not a site protected by ECAS, the identified the site and the time will be recorded in a log file. We do not record the time you spint logged in to a site. However, if you logout of ECAS, which is not normally necessary, the ta thich you do so the be recorded. o allow you to log in to different applications without re-streting your username and password. These cookies contain no personal information whatsever, merel authentication service to find your entry in its own tables. The cookies are be-assisting cookies, they are destroyed intensy out does your browser. The schedule studies contain to go the your browser, merel automatication service to find your entry in its own tables. The cookies are be-assisting to cookies, the they are destroyed intensy out does your browser. The schedule studies contain the schedule and the final service and the schedule and the sche 3. Who has access to your information and to whom is it disclosed? tering yourself, you authorise the disclosure of the details you have entered in the user registration system to any Commission site that you access after having given yo sword. If you were registered by your organisation, your consent is assumed to have been given (implicitly or explicitly) for the transfer of your details. The details of the activity associated with your account are never passed to any other Comm ission site by IMS. will not divulge your information to third parties outside the Informatics DG with the foll the duly authorised support unit or help desk responsible for the domain in which you are registered uluy authorised bodies, on a case by case basis: OLAF, internal Commission Security Directorate or disciplinary bodies, the Ombuc To preserve your privacy, you can choose (through an option on the login screen) to be notified whenever a relying party (i.e. a Commission site) requests your identity - you will have the option to cancel the operation before any information is passed. However, this may render the application inaccessible to you. If, having logged in into ECAS, you wish to access sites anony mously, you can do not the following before concenting to the set in question: open a new browser session and use it to access the site logout from the authentication service disable cookies in your browser options If you need to access a Commission site that requires you to register and authenticate, but you do not wish it to have access to the details you supplied in order to gain access to another Commission site, we supgest you create a separate account for this purpose. This will require you to provide a distinct e-mail address, which need not be traceable to you personally. Of course, this may devo access to catin site which require you of di denthy. vord is stored only in an irreversible form. Apart from your password, the service administrators can view all of the data pertaining to a particular user. This helps them to perform 4. How do we protect and safeguard your information? nd your information can only be accessed by authorised pers When you login, the password is always encrypted on the network and is decrypted for checking against the stored password by the authentication service, not by the individual site. All passwords (including previous passwords mentioned above) are stored in a form that permits them to be checked against a supplied value, but their actual value cannot be derived from the The details about your user account are available only to yourself and the set If you registered yourself directly, you should be aware that anyone with access to read your e-mail may be able to use the account you or responsible for assessing the risk that this presents to you personally. Similarly, certain users are allowed to reset their password using e-mail. They should bear in mind that anyone else with access to their e-mail (because of automatic forwa or other reasons) will be able to reset the password. For this reason, in order to perform important business or access sensitive information, the Commission requires more stringent identity checks and your account will need to be set up or transformed specifically for this purpose. You will need to contact the relevant Commission department or a delegated representative in your organisation to achieve this. If you have any reason to believe that your password has been compromised – for example, if your password appears to have been changed without your knowledge - you should notify your normal support contact or contact the Commission as described on the user registration and authentication pages. , and especially if you have access to sensitive systems, you should never reveal your password to anybody else: it is a secret only you should know. In particular, your ECAS should only ever be entered on screens showing the approved ECAS logo. Do not enter it if you have doubts about the authenticity of the ECAS site. When you enter your password, make sure your browser indicates (usually by means of a paddock or other icon) that you are on a secure connection and that you are connected to a Com mission site address (e.g. ec.europa.eu, webgek.eu-admin.net).

5. How can you verify, modify or delete your information?

You can verify your account information, including the data recorded about activity on your account, in the pages of either the user registration service or the Authentication Service (ECAS). This excludes information that is only held in log (lies) if you wish to access your log file entities, you may request it by writing to the Controller at the address given below. A response will be given within a period of its weeks from the date of receipt of the request.

culty, you can obtain help by following the contact link below (see point 7).

If you registered yourself in the Commission's system, you will be able to change or remove any personal information on-line. However, if your details were registered through a third party, this may not be possible and you will have to contast that third party in order to have the information changed: you may nevertheless have the information removed by the Commission, but if the third party results this information to the Commission, will be re-instant. Since it is collected automatically, it is not possible to modify any of the technical data held by the authentication service, with the exception of the pass

6. How long do we keep your data?

magement Service keeps your data for as long as your are recorded as an advice user and for a period of one year thereafter. Data concerning user automatically registered users (in the Commission and centra on the EU blocket) may be keep for a sing as a is retained in the source vectore. If you were existend through a tind gain, the period sussily concerpoint to a contractual link with that party or be subject to an expiration date. In other cases, the Commission will consider you active as long as you continue to nor or und your account expires.

Note that in the case of users who registered with IMS themselves, the period of one year is extended in order to allow the exchange of e-mail with a user. This exchange will provide for the user to request an extension, thus resetting to zero the recorded period of inactivity. In the absence of a response from the user, all personal data will be erased.

3.4 contact

Contact Privacy Statement English (en) v	
EUROPEAN COMMISSION AUTHENTICATION SERVICE (ECAS)	
EUROPA > Authentication Service > Contact Change password My Account Help Logout	
External Alexandru-Ionut CHIUTA (chiuta)	
Contact	
ECAS, the European Commission Authentication Service, enables you to access various Web applications centrally, using the same username and password. ECAS is a separate entity from the applications it protects. Once you have logged in, what happens depends on the application protected by ECAS, not on ECAS itself.	
External users	
If your username was assigned by a Commission service provider or another contact/support team at the Commission, please contact them in the first instance.	
The sites in question should provide contact information on pages for which you do not have to login.	
 If you are an external user having difficulties in registering yourself for access to Commission systems and you have tried the suggestions provided through the Help links on the login page, but this has not solved your problem and you are sure your problem has something to do with your registration or your username/password in ECAS, not with the application protected by ECAS 	
To help us help you as efficiently as possible:	
1. Please gather the following information:	
 the username or e-mail address of the account(s) concerned the nature of your relationship with the Commission (short-term contract, permanent contract, seconded national expert, service provider?) the application concerned 	
 how you are accessing this application (including its URL, which should be different from the ECAS URL) the source of the URL you are using (e-mail, link on website, bookmark, colleague, etc) 	
 as detailed a description of the problem as possible if possible, one or more screenshots showing the problem: the address bar showing the webpage accessed and the step immediately before the problem arises 	
 any other information that might help us identify the reason for the problem (e.g. in the event of a problem with SMS authentication: your mobile telecoms provider, the country where the mobile subscription is based, your current location, the last time you re- quested the SMS, the last time you successfully received it, etc.) 	
If you haven't done so already, register an incident with the EC Helpdesk for the "ACCESS- RIGHTS" team and provide the information listed under the previous point.	
This can be done via the EC Central Helpdesk (EC working hours: 8 a.m 6 p.m. CET): EC-CENTRAL-HELPDESK@ec.europa.eu	
On opening this ticket, you will be assigned a reference number enabling your request to be tracked. If you send an e-mail to follow up an existing incident, please give the incident reference ("IM00xxxxxxxx") in the subject line.

Introduction to ECA	S (European Commission Authentication Service)	
ECAS is the European Commission's word.	user authentication service. It allows authorised users to access a wide range of Commission information	systems, using a single username and pass-
	Frequently asked questions	
	V What is ECAS? The Commission's Authentication Service. It is the system for logging on to a whole range of web sites and online services run by the Commission. Once you've used ECAS to log on to a website or service, you won't have to identify yourself again as long as you leave your browser open.	
	> When do I use my ECAS password?	
	> What happens if I forget my ECAS password?	
	> How do I logout of ECAS and when is it important to do so?	
	> My account is locked. How did that happen?	
	> How can I prevent my identity from being revealed to an application?	
	> Why can I carry on working in applications for which ECAS authenticated me even after logging out of ECAS?	
	> Why don't I need to login to my application again after I've logged out of it?	
	> What does it mean when an account is blocked?	
	I entered the correct username and password, but can't access the application. What's wrong?	
	> What's "automatic sign-on" or "single sign-on"?
